PROFESSIONAL EXPERIENCE

KIRO – *AI Financial Coaching App*

Jun 2025 – Aug 2025

Product Manager Intern

- Built and shipped AI-driven onboarding and learning flows across web and mobile, improving activation by 65% and 3x week-one retention.
- Designed and implemented backend logic and data flows for Plaid API integrations, enabling real-time financial insights.
- Developed chat-based AI experiences, working across UX, prompt design, and system behaviour to improve engagement
- Ran rapid experiments and shipped iterations based on user behaviour and analytics dashboards

CITI CORP – *Citi Institutional Client Group*

Aug 2020 – Oct 2022

Technical Analyst

- 2+ years working with distributed systems, microservices, and enterprise-scale data pipelines in a high-volume financial environment.
- Supported migration of a legacy backend to a microservices architecture, partnering cross-functionally to design and validate data flows, APIs, and system integrations, ensuring reliability across services handling millions of transactions monthly.
- Created and implemented a Cucumber-based Test Automation Framework with 500+ tests, reducing regression cycles by 70%.

VENTURE LAB – *Entrepreneurship Center at the University of Pennsylvania*

Sept 2024 – May 2026

Studio Technician

- Helped student entrepreneurs translate early-stage ideas into physical prototypes by advising on fabrication strategy, material choices, and safe use of prototyping equipment including laser cutters, 3D printers, CNC machinery, and other studio tools.

SELECTED PROJECTS

SPEAKEASY | kshreyas.com/work/speakeasy

Dec 2025 – May 2026

AI systems, Product Design & Full-Stack Development

- Built an AI-powered English practice app that turns real-world articles into vocabulary learning, pronunciation support, and voice-based speaking practice.
- Designed and developed the React Native/Expo mobile experience, including article discovery, saved vocabulary, listening flows, and contextual AI tutor interactions.
- Prototyped speech-to-text, text-to-speech and LLM workflows to help intermediate learners practice English through topics they already care about.

AUTONOMOUS BATTLEBOT | kshreyas.com/work/autonomous-battlebot

Jan 2025 – May 2025

Mechatronics & Embedded Programming

- Built an autonomous competition robot integrating ToF sensors, servos, motors, and a whisker-based health depletion system.
- Designed and fabricated the robot chassis and sensor mounts using CAD and rapid prototyping techniques like 3D printing and laser cutting, ensuring structural integrity during matches.
- Programmed ESP32-based control logic for real-time motion, I2C communication, sensor integration, and game-state behaviour.

AMTRAK | kshreyas.com/work/amtrak

Jan 2025 – May 2025

Product, UX & Service Design

- Partnered with Amtrak to reimagine the first-time rider journey along the Northeast US rail corridor.
- Conducted user interviews, competitive analysis, and co-design sessions to identify problems with existing Amtrak systems and provide new digital and physical solutions to improve traveller experience and retention rates.
- Delivered low and high-fidelity mockups and prototypes using Figma to present and test the concepts.

EDUCATION

UNIVERSITY OF PENNSYLVANIA, PHILADELPHIA, PA

Aug 2024 – May 2026

Master of Science in Integrated Product Design

- Joint degree between Penn Engineering, Wharton School of Business, and Weitzman School of Design
- **Relevant Coursework** – Product Management, Engineering Entrepreneurship, Design for Manufacturability, Problem Framing

COEP TECHNOLOGICAL UNIVERSITY, PUNE, INDIA

Aug 2016 – May 2020

Bachelor of Technology in Information Technology with Minors in Financial Engineering

- **Relevant Coursework** – Data Structure and Algorithms, Financial Modeling
